

I-66 Sluglines

<https://sluglines.com>

Slugging is a unique form of commuting, different from Carpooling. Sluglines assists drivers by reaching the two or three person HOV requirement, and passengers in getting a free ride.

- 1) The driver pulls into one of the many known locations for Sluglines, where riders line up.
- 2) Driver holds up a sign or rolls down the window to call out his/her destination.
- 3) Riders first in line heading to the driver's location get into the car and off they go!
